

LECHIFFRE™

FROM CODE TO EXECUTION.

How members use LeChiffre™, step by step. Orders are always placed by you, with your own broker.

THE 5 STEPS

01**JOIN**

Pick the monthly or annual plan and pay with PayPal.

02**MEMBER CODE**

You receive your personal member code.

03**LOG IN**

Open the LeChiffre app (Android or web) and log in with your code plus your name or email. Create a free TradingView account, then send LeChiffre your TradingView username — LeChiffre gives you access to the TradingView indicator.

04**CHOOSE YOUR PLATFORM**

TradingView, MetaTrader 5 or cTrader — the signals are the same.

05**SIGN UP WITH A BROKER**

Open an account with any broker you prefer and connect it to TradingView, MetaTrader 5 or cTrader. LeChiffre is not a broker and has no partner broker.

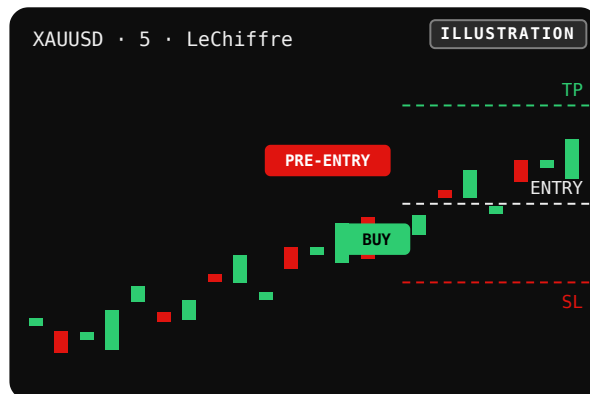

RISK DISCLAIMER

These pages are simplified illustrations, not real prices or results. LeChiffre does not place trades for you, is not a broker and has no partner broker, and nothing here is financial advice. Trading futures, foreign exchange, and equities involves substantial risk of loss and is not suitable for every investor. Past performance is not indicative of future results.

PLATFORM GUIDES

TRADINGVIEW

- 01 GET THE INDICATOR**
Send LeChiffre your TradingView username — LeChiffre gives you access to the LeChiffre indicator, an invite-only script on TradingView.
- 02 ADD IT & SET ALERTS**
Add it to your XAUUSD or BTCUSD chart and create alerts so the setup reaches you.
- 03 PRE-ENTRY**
A PRE-ENTRY label means a setup is forming: get ready, no direction yet.
- 04 BUY / SELL, TP & SL**
The confirmed signal shows the direction with entry, take profit and stop loss on the chart.

METATRADER 5

- 01 OPEN MT5 FROM THE APP**
In the LeChiffre app, the MT5 button opens MetaTrader 5 on XAUUSD.
- 02 GET NOTIFIED**
A notification arrives: Pre-entry, then the Signal with entry, SL and TP.
- 03 PLACE YOUR ORDER**
Place the order yourself with your own broker and set the SL and TP from the signal.
- 04 FOLLOW THE RESULT**
The result (TP hit, SL hit, closed) appears in the app.

The illustration shows the MetaTrader 5 order entry window for XAUUSD. It includes fields for 'Order' (set to Market), 'Volume' (set to 1), 'Stop Loss' (set to 'from signal'), and 'Take Profit' (set to 'from signal'). At the bottom are large red 'SELL' and green 'BUY' buttons. The window is labeled 'MetaTrader 5 · XAUUSD' and 'ILLUSTRATION'.

CTRADER

01 OPEN CTRADER FROM THE APP

The cTrader button opens the cTrader app on Android, or the cTrader web app.

02 GET NOTIFIED

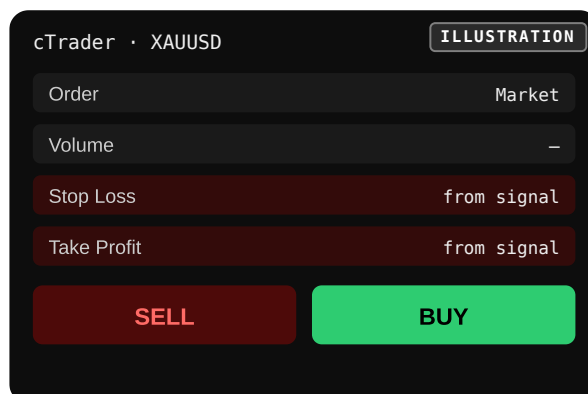

A notification arrives: Pre-entry, then the Signal with entry, SL and TP.

03 PLACE YOUR ORDER

Place the order yourself with your own broker and set the SL and TP from the signal.

04 FOLLOW THE RESULT

The result (TP hit, SL hit, closed) appears in the app.

LECHIFFRE APP

01 TIMEFRAMES & NOTIFICATIONS

Signals by timeframe — All · 1M · 3M · 5M · 15M · 30M · 4H — with one notification switch per timeframe.

02 PRE-ENTRY

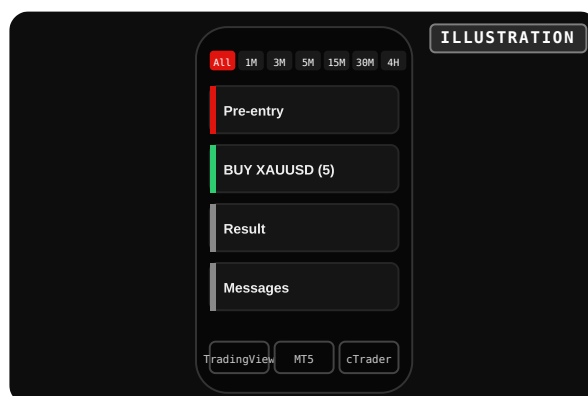

“Preentry Get Ready!” — a setup is forming; the BUY or SELL appears right below once confirmed.

03 SIGNAL → RESULT

Each signal shows entry, TP and SL, then its result: TP hit, SL hit or closed.

04 MESSAGES

The Messages tab lets you talk to LeChiffre with text, voice notes, images and files.
